MADHU VADDI

Business Development and Strategic Alliances Leader

AI Robotics Clean & Sustainable Energy Defence Technology Smart-City ICT
Hyderabad, Telangana +91-8106882925 madhu23vaddi@outlook.com www.linkedin.com/in/madhu-vaddi

PROFESSIONAL SUMMARY

Revenue-focused business leader with three decades of experience winning public-sector, defence and corporate mandates across sustainable clean energy, ICT infrastructure and robotics. Skilled at turning complex tenders into multi-crore orders, forging partnerships with equipment makers and integrators, and carrying emerging technology from demonstration to revenue. Presently commercialising Indian-made AI robots for health departments, elderly care service robots, police forces and educational segments. Seeking a senior role to accelerate business growth, innovation and strategic alliances.

CORE COMPETENCIES

Technology Domains: AI robotics, hybrid wind–solar energy, micro modular reactors, drones, thermal imaging, optics, smart counter surveillance, IoT & office automation.

Sales Leadership: tender and bid management (GeM, CPPP, state e-procurement, reverse auctions), key-account development, channel-partner management, long multi-stakeholder sales cycles

Management: project delivery, ROI optimisation, team building, negotiation, feasibility studies, regulatory navigation, cross-functional leadership

Quality & Audit: ISO 9001:2015 QMS internal auditing and implementation, with audits conducted at Tulip Telecom Ltd, Windstream Energy Technologies and, as an independent private audit, 7S Technologies Private Limited

Business Systems: SAP SD, AS/400, SaaS, RaaS platforms, MS Office, AI tools for automation, presentations and data analysis

KEY ACHIEVEMENTS

- Built and demonstrated Indian-made AI robots for healthcare and policing (2025–26).
- Secured INR 16 crore in Indian defence orders for vertical wind–solar hybrid systems (2024–25).
- Delivered INR 7 crore of solar projects for Telangana jails and petrol bunks, ahead of benchmarks (2023–25).
- Grew the renewable-energy portfolio by INR 6 crore+ spanning L&T, IOCL, NMDC, Railways and telecom operators.
- Led a INR 3.5 crore biometric attendance system for NALCO at major mining sites, lifting operational efficiency.
- Deployed INR 60 lakh of surveillance systems for Apollo Hospitals in Odisha under HCL Infosystems.
- Won air-to-water generator orders from MES and the Coast Guard, including supply to the Andaman & Nicobar Islands HQ.
- Godrej National No. 1 Channel Sales Manager award for selling 75 multifunction photocopiers in 3 months.
- Forged OEM and system-integrator alliances that captured competitive PSU, government and smart-city tenders.
- Implemented and conducted ISO 9001 QMS internal audits across three organisations: Tulip Telecom (2008–11), ISO 9001-2015, in 7S Technologies (2018–20) and Windstream Energy (2023–25).

PROFESSIONAL EXPERIENCE

Serum AI Robotics Pvt Ltd — *Apr 2025 – Present*

Business Development Strategist

- Lead go-to-market for AI-based robots serving hospitals, police and schools, plus drones for agriculture and defence.
- Advance green-energy initiatives in modular reactors and LENR while widening reach for hybrid wind–solar offerings.
- Structured pilot commercialisation plans covering pricing, positioning and partner roles for elder-care and school-learning robots, working with an engineering college and a software firm.

Windstream Energy Technologies India Pvt Ltd — *Sep 2023 – Mar 2025*

Head of Business Development, PAN India

- Opened defence and corporate accounts and raised the GeM bid win rate.
- On boarded and managed ten national channel partners while retaining top strategic accounts.
